Mission: To empower children and families to develop positive skills to meet life's challenges.

Solutions can be difficult to find and even more difficult to put into action. At Riverbend Head Start & Family Services, we work hard to help thousands of children and families find positive solutions to life's challenges and transform lives.

Unfortunately, we can't solve every problem. It takes the network of Madison County health and human service providers in this book to help all of those in need.

We have found this annual *Community Resource Directory* to be a valuable tool for parents, caregivers, social workers, educators, health care and administrative staff to use when searching for solutions.

It is our hope that a solution for everyone's challenges lies within these pages. Together we are **teaching children, strengthening families** and **enhancing communities**.

Sincerely

How to Use

The Community Resource Directory

The directory has a Table of Contents, which lists categories or types of services. What kind of services does your family need? Look for that type of service.

For example: If you are interested in getting a GED, look under Adult Education. Under each category or type of service, you will find a list of the agencies or programs which provide that service. Locate the page number listed and turn to that page.

Look for the agency located near you. Some agencies will serve all of Madison County while others will serve only a certain area or town. Then, call the agency to see if they have what you want. Be sure to ask how you can get the service.

Tips for calling agencies:

1. Decide what you need before you call. You may have to talk to several people (many agencies have complex phone systems.) For instance, in the case of a GED say, "I need to talk to someone who can tell me how to get a GED". Repeat until you get someone who can help.
2. Call agencies during normal business hours. Try not to call from 12-1 p.m. (lunch hour). On evenings and weekends for emergency needs, you might try Crisis Intervention agencies or 24-hour hotlines.
3. Ask how you get the service. Do you have to come to a certain place at a certain time? Do you need proof of anything, like income? Do you have to fill out an application? Different agencies have different eligibility requirements. If the agency cannot help you, ask them for names of other agencies that can help.
4. If you need more information or help, check with a family advocate or teacher of Riverbend Head Start & Family Services.

Employment Specialists work one-on-one with participants to explore career options, develop resumes, practice interview skills, and connect directly with employers.

We also provide guidance on how earnings may affect Social Security or other benefits to help participants plan and make informed decisions.

Once employed, individuals continue to receive on-the-job support to promote success and long-term job retention.

Each group needs a qualified driver and back up driver. The RideFinders staff do not drive the carpools or vanpools but rather facilitate and support the rideshare groups. Carpoolers and vanpoolers are eligible for four free Guaranteed Rides Home (GRH) each year.

Participants are reimbursed up to four times at up to \$125 per emergency ride each calendar year. Participants submit receipts to RideFinders and may choose to use a taxi, Uber, or Lyft.
